

CODE THE GOOGLE LANGUAGE TRANSLATOR

Place the following code inside the head tag:

```
<script type="text/javascript">
    function googleTranslateElementInit() {
        new google.translate.TranslateElement({ pageLanguage: 'en' },
'google_translate_element');
    }
</script>
<script type="text/javascript"
src="https://translate.google.com/translate_a/element.js?cb=googleTranslateElementInit"></script>
```

Place the following tag inside the body where you want to display the language translator dropdown:

```
<div id="google_translate_element"></div>
```
